

BSI Standards Publication

# **Space — Use of GNSS-based positioning for road Intelligent Transport Systems (ITS)**

Part 1: Definitions and system engineering procedures for the establishment and assessment of performances

**National foreword**

This British Standard is the UK implementation of EN 16803-1:2016.

The UK participation in its preparation was entrusted to Technical Committee ACE/68, Space systems and operations.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
