

Transportable gas cylinders — Specification for the design and construction of refillable transportable seamless steel gas cylinders of water capacities from 0,5 litre up to and including 150 litres —

**Part 1: Cylinders made of seamless steel
with an R_m value of less than 1100 MPa**

The European Standard EN 1964-1:1999 has the status of a
British Standard

ICS 23.020.30

National foreword

This British Standard is the official English language version of EN 1964-1:1999. It partially supersedes BS 5045-1:1982, which will be amended accordingly and be renumbered as BS 5045-7 to cover special portable applications.

The UK participation in its preparation was entrusted by Technical Committee PVE/3, Gas containers, to subcommittee PVE/3/3, Transportable gas containers- Cylinder design and construction and testing at time of manufacture, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 49 and a back cover.
