

Chemical analysis of magnesite and dolomite refractory products (alternative to the X-ray fluorescence method)

**Part 1: Apparatus, reagents,
dissolution and determination of
gravimetric silica (ISO 10058-1:2008)**

ICS 73.080; 81.080

National foreword

This British Standard is the UK implementation of EN ISO 10058-1:2008. It partially supersedes BS EN ISO 10058:1996.

Together with BS EN ISO 10058-2 and BS EN ISO 10058-3, it supersedes BS EN ISO 10058:1996 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee RPI/1, Refractory products and materials.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2009
