Paints and varnishes — Modelling of biocide release rate from antifouling paints by mass-balance calculation

National foreword

This British Standard is the UK implementation of EN ISO 10890:2010.

The UK participation in its preparation was entrusted to Technical Committee STI/10, Test methods for paints.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
