Plastics piping systems for renovation of underground gas supply networks

Part 3: Lining with close-fit pipes

National foreword

This British Standard is the UK implementation of EN ISO 11299-3:2018. It is identical to ISO 11299-3:2018. It supersedes BS EN ISO 11299-3:2013, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/88/3, Rehabilitation of pipeline systems using plastics piping materials and components.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
