Clothing to protect against heat and flame — Determination of contact heat transmission through clothing or constituent materials

Part 1: Contact heat produced by heating
cylinder

National foreword

This British Standard is the UK implementation of EN ISO 12127-1:2015. It supersedes BS EN 702:1995 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PH/3/2, Heat and Flame Personal Protective Equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
