

Health and safety in welding and allied processes — Laboratory method for sampling fume and gases

**Part 3: Determination of ozone
emission rate during arc welding (ISO
15011-3:2009)**

ICS 13.040.30; 13.100; 25.160.10

National foreword

This British Standard is the UK implementation of EN ISO 15011-3:2009. It supersedes BS EN ISO 15011-3:2002 which was withdrawn in 2005 at the request of CEN/TC 121/SC 9, as the methodology prescribed in the standard had been found to be unsatisfactory.

The UK participation in its preparation was entrusted to Technical Committee WEE/40, Health and safety in welding.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 November 2009
