

BSI Standards Publication

Petroleum and natural gas industries — Modular drilling rigs for offshore fixed platforms

National foreword

This British Standard is the UK implementation of EN ISO 18647:2019. It is identical to ISO 18647:2017. It supersedes BS ISO 18647:2017, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PSE/17, Materials and equipment for petroleum, petrochemical and natural gas industries.

Readers are advised that, during the development of this Standard, the UK committee strongly recommended that the document be published as a Technical Specification as it provides general guidance.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
