

BSI Standards Publication

**Milk — Quantitative determination of
microbiological quality — Guidance for
establishing and verifying a conversion
relationship between results of an alternative
method and anchor method results**

National foreword

This British Standard is the UK implementation of EN ISO 21187:2021. It is identical to ISO 21187:2021. It supersedes BS EN ISO 21187:2005, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee AW/5, Chemical analysis of milk and milk products.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
