

Medical devices utilizing animal tissues and their derivatives —

**Part 3: Validation of the elimination
and/or inactivation of viruses and
transmissible spongiform
encephalopathy (TSE) agents**

ICS 11.100.20

National foreword

This British Standard is the UK implementation of EN ISO 22442-3:2007. It supersedes BS EN 12442-3:2000 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee CH/194, Biological evaluation of medical devices, to Subcommittee CH/194/1, Medical devices utilizing tissues.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 29 February 2008
