Geotechnical investigation and testing – Testing of geotechnical structures

Part 1: Testing of piles: static compression load testing (ISO 22477-1:2018)

National foreword

This British Standard is the UK implementation of EN ISO 22477-1:2018.

The UK participation in its preparation was entrusted to Technical Committee B/526/3, Site investigation and ground testing.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
