

Paints and varnishes — Determination of percentage volume of non-volatile matter by measuring the non- volatile matter content and the density of the coating material, and calculation of the theoretical spreading rate (ISO 23811:2009)

ICS 87.040

National foreword

This British Standard is the UK implementation of EN ISO 23811:2009. The UK participation in its preparation was entrusted to Technical Committee STI/10, Test methods for paints.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2009.
