Paints and varnishes — Determination of the percentage volume of non-volatile matter

Part 3: Determination by calculation from the non-volatile-matter content determined in accordance with ISO 3251, the density of the coating material and the density of the solvent in the coating material

National foreword

This British Standard is the UK implementation of EN ISO 3233-3:2015. It supersedes BS EN ISO 23811:2009 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee STI/10, Test methods for paints.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
