

BS EN ISO 8015:2011

BSI Standards Publication

**Geometrical product
specifications (GPS) —
Fundamentals — Concepts,
principles and rules (ISO
8015:2011)**

National foreword

This British Standard is the UK implementation of EN ISO 8015:2011. It supersedes BS ISO 8015:1985 which is withdrawn.

BSI, as a member of CEN, is obliged to publish EN ISO 8015:2011 as a British Standard. However, attention is drawn to the fact that during the development of this European Standard, the UK committee voted against its approval as a European Standard. The reason for the negative vote is the wording of clause 5.1 where the indication "Tolerancing ISO 8015" is optional. It is the UK committee's opinion that this indication should always be invoked in the marking of a Technical Product Specification which will be interpreted in accordance with ISO GPS systems. The UK participation in its preparation was entrusted to Technical Committee TDW/4, Technical Product Realization.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
