

BS IEC 61935-2-24:2015

BSI Standards Publication

Generic cabling systems — Specification for the testing of balanced communication cabling in accordance with ISO/IEC 11801

Part 2-24: Cord and work area cord
category 7A — Blank detail specification

National foreword

This British Standard is the UK implementation of IEC 61935-2-24:2015.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
