Vibration-generating machines — Guidance for selection

Part 2: Equipment for dynamic structural testing

National foreword

This British Standard is the UK implementation of ISO 10813-2:2019.

The UK participation in its preparation was entrusted to Technical Committee GME/21/2, Vibration and Shock Generating Systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
