

BS ISO 11354-2:2015

BSI Standards Publication

Advanced automation technologies and their applications — Requirements for establishing manufacturing enterprise process interoperability

Part 2: Maturity model for assessing enterprise interoperability

National foreword

This British Standard is the UK implementation of ISO 11354-2:2015.

The UK participation in its preparation was entrusted to Technical Committee AMT/5, Industrial architectures and integration frameworks.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
