Measurement of radioactivity in the environment — Air: radon-222

Part 4: Integrated measurement method for
determining average activity concentration
using passive sampling and delayed analysis

National foreword

This British Standard is the UK implementation of ISO 11665-4:2012.

The UK participation in its preparation was entrusted to Technical Committee NCE/2, Radiation protection and measurement.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
