BSI Standards Publication

Electrically propelled road vehicles — Test specification for lithium-ion traction battery packs and systems

Part 1: High-power applications

National foreword

This British Standard is the UK implementation of ISO 12405-1:2011.

The UK participation in its preparation was entrusted to Technical Committee PEL/69, Electric vehicles.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
