

Electronic imaging — Test target for the black-and-white scanning of office documents —

Part 1: Characteristics

ICS 37.080

National foreword

This British Standard reproduces verbatim ISO 12653-1:2000 and implements it as the UK national standard.

A test target in accordance with BS ISO 12653-1:2000, is available as DISC PD 0023:2001, *Test target for assessing output quality of black-and-white document scanners in accordance with BS ISO 12653*. It should be used with the methods specified in BS ISO 12653-2:2000.

The UK participation in its preparation was entrusted by Technical Committee IDT/1, Document imaging applications, to Subcommittee IDT/1/1, Quality, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the DISC Board, was published under the authority of the Standards Committee and comes into effect on 15 May 2001
