

BSI Standards Publication

Hydraulic fluid power - Method for determining the required cleanliness level (RCL) of a system

National foreword

This British Standard is the UK implementation of ISO 12669:2017.

The UK participation in its preparation was entrusted to Technical Committee MCE/18/-/6, Contamination control.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
