Ships and marine technology — Risk assessment on anti-fouling systems on ships

Part 1: Marine environmental risk
assessment method of biocidally active
substances used for anti-fouling systems on
ships

National foreword

This British Standard is the UK implementation of ISO 13073-1:2012.

The UK participation in its preparation was entrusted to Technical Committee SME/32/-/2, Ships and marine technology — Maritime environment protection.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
