

Buildings and constructed assets — Service life planning —

Part 3: Performance audits and reviews

ICS 91.040.01

National foreword

This British Standard reproduces verbatim ISO 15686-3:2002 and implements it as the UK national standard. All parts of BS ISO 15686 when published will together supersede BS 7543:1992, which will remain current until further notice. BS 7543:1992 is being amended to delete text superseded by BS ISO 15686 in order to retain annex B on agents that cause deterioration and annex C on examples of premature deterioration.

The UK participation in its preparation was entrusted by Technical Committee B/500, Basic data, to Subcommittee B/500/3, Durability which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

this publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Building and Civil Engineering Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 2 September 2002
