Indoor air

Part 38: Determination of amines in indoor and test chamber air — Active sampling on samplers containing phosphoric acid impregnated filters

National foreword

This British Standard is the UK implementation of ISO 16000-38:2019.

The UK participation in its preparation was entrusted to Technical Committee EH/2/5, Emissions to internal environments.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
