Rubber latex — Determination of apparent viscosity by the Brookfield test method

National foreword

This British Standard is the UK implementation of ISO 1652:2011. It supersedes BS ISO 1652:2004 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Rubber - Raw, natural and synthetic, including latex and carbon black.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
