

BSI Standards Publication

**Nuclear energy — Guidance to the evaluation
of measurement uncertainties of impurity in
uranium solution by linear regression analysis**

National foreword

This British Standard is the UK implementation of [ISO 18315:2018](#).

The UK participation in its preparation was entrusted to Technical Committee NCE/9, Nuclear Installations, Processes & Technologies.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
