

BSI Standards Publication

Workplace air — Analysis of respirable crystalline silica by Fourier-Transform Infrared spectroscopy

National foreword

This British Standard is the UK implementation of ISO 19087:2018.

The UK participation in its preparation was entrusted to Technical Committee EH/2/2, Work place atmospheres.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
