

BSI Standards Publication

Sludge recovery, recycling, treatment and disposal — Beneficial use of biosolids — Land application

National foreword

This British Standard is the UK implementation of ISO 19698:2020.

The UK participation in its preparation was entrusted to Technical Committee EH/5, Sludge characterization.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
