

BSI Standards Publication

**Rubber compounding ingredients —
Precipitated silica — Determination of
aggregate size distribution by disc centrifuge**

National foreword

This British Standard is the UK implementation of ISO 20927:2019.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Raw materials (including latex) for use in the rubber industry.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
