Sustainability in buildings and civil engineering works — Framework for methods of assessment of the environmental, social and economic performance of construction works as a basis for sustainability assessment

Part 1: Buildings

National foreword

This British Standard is the UK implementation of [ISO 21931-1:2022](#). Together with [BS EN 15643-2:2011](#), it supersedes [BS ISO 21931-1:2010](#) which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/558, Sustainability of construction works.

A list of organizations represented on this committee can be obtained on request to its committee manager.
