Mechanical vibration — Rotor balancing

Part 23: Enclosures and other protective measures for the measuring station of balancing machines

National foreword

This British Standard is the UK implementation of ISO 21940-23:2012. It supersedes BS ISO 7475:2002 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee GME/21/5, Mechanical vibration, shock and condition monitoring - Vibration of machines.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
