

BSI Standards Publication

Mechanical vibration — Torsional vibration of rotating machinery

Part 1: Evaluation of steam and gas turbine generator sets due to electrical excitation

National foreword

This British Standard is the UK implementation of [ISO 22266-1:2022](#). It supersedes [BS ISO 22266-1:2009](#), which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee GME/21/5, Vibration of machines, vehicles and structures.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
