Equipment for crop protection — Method for measurement of potential spray drift from horizontal boom sprayers by the use of a test bench

National foreword

This British Standard is the UK implementation of ISO 22401:2015.

The UK participation in its preparation was entrusted to Technical Committee AGE/15, Equipment for crop protection and application of liquid fertilizer.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
