

BSI Standards Publication

**Composites and reinforcements fibres —
Determination of the fracture energy of bonded
plates of carbon fibre reinforced plastics (CFRPs)
and metal using double cantilever beam specimens**

National foreword

This British Standard is the UK implementation of [ISO 22838:2020](#).

The UK participation in its preparation was entrusted to Technical Committee PRI/42, Fibre reinforced thermosetting plastics and prepregs.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
