

BSI Standards Publication

Railway applications — Concepts and basic requirements for the planning of railway operation in the event of earthquakes

National foreword

This British Standard is the UK implementation of ISO 22888:2020.

The UK participation in its preparation was entrusted to Technical Committee RAE/1, Railway Applications.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
