Road vehicles — Functional safety

Part 11: Guidelines on application of ISO 26262 to semiconductors

National foreword

This British Standard is the UK implementation of ISO 26262-11:2018.

The UK participation in its preparation was entrusted to Technical Committee AUE/32, Electrical and electronic components and general system aspects (Road vehicles).

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
