Cheese and processed cheese — Determination of the nitrogenous fractions

National foreword

This British Standard is the UK implementation of ISO 27871:2011.

The UK participation in its preparation was entrusted to Technical Committee AW/5, Chemical analysis of milk and milk products.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
