

BSI Standards Publication

Air quality — Environmental meteorology

Part 2: Ground-based remote sensing of wind by heterodyne pulsed Doppler lidar

National foreword

This British Standard is the UK implementation of ISO 28902-2:2017.

The UK participation in its preparation was entrusted to Technical Committee EH/2/3, Ambient atmospheres.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
