

BSI Standards Publication

Measurement of fluid flow in closed conduits — Velocity area method using Pitot static tubes

National foreword

This British Standard is the UK implementation of ISO 3966:2020. It supersedes BS ISO 3966:2008, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CPI/30/5, Velocity and Mass Methods.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
