Petroleum and liquid petroleum products — Measurement of level and temperature in storage tanks by automatic methods

Part 6: Measurement of temperature in pressurized
storage tanks (non-refrigerated)

National foreword

This British Standard is the UK implementation of ISO 4266-6:2024. It supersedes BS ISO 4266-6:2002, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/12, Petroleum Measurement and Sampling.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
