

BSI Standards Publication

**Energy performance of buildings — Method
for calculation of system energy requirements
and system efficiencies — Space emission
systems (heating and cooling)**

National foreword

This British Standard is the UK implementation of ISO 52031:2020.

The UK participation in its preparation was entrusted to Technical Committee RHE/2, Ventilation for buildings, heating and hot water services.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
