

BSI Standards Publication

Hydrometric determinations — Flow measurements in open channels using structures — Guidelines for selection of structure

National foreword

This British Standard is the UK implementation of ISO 8368:2019. It supersedes BS ISO 8368:1999, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CPI/113/2, Flow measurement structures.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
