

BSI Standards Publication

Reciprocating internal combustion engine driven alternating current generating sets

Part 8: Requirements and tests for low-
power generating sets

National foreword

This British Standard is the UK implementation of ISO 8528-8:2016. It supersedes BS 7698-8:1996 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee MCE/14, RIC engines.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
