

Fasteners — General requirements for bolts, screws, studs and nuts

ICS 21.060.10; 21.060.20

National foreword

This British Standard reproduces verbatim ISO 8992:2005 and implements it as the UK national standard.

The UK participation in its preparation was entrusted by Technical Committee FME/9, Nuts, bolts and accessories steering committee, to Subcommittee FME/9/3, Dimensional work on fasteners, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
