Ref. No. ISO 1035/4-1982 (E)

Descriptors : iron- and steel products, hot rolled products, metal bars, dimensions, dimensional tolerances, metric system.

Price based on 3 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 1035/4 was developed by Technical Committee ISO/TC 17, *Steel*, and was circulated to the member bodies in April 1981.

It has been approved by the member bodies of the following countries :

Australia	India	Romania
Austria	Italy	South Africa, Rep. of
Brazil	Japan	Spain
Canada	Kenya	Sweden
China	Korea, Dem. P. Rep. of	Switzerland
Czechoslovakia	Korea, Rep. of	Tanzania
Egypt, Arab Rep. of	Netherlands	Turkey
France	New Zealand	United Kingdom
Germany, F.R.	Norway	USSR
Hungary	Poland	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Belgium
USA

This second edition cancels and replaces the first edition (i.e. ISO 1035/4-1976).
