

INTERNATIONAL STANDARD

ISO
2898-1

Third edition
1996-08-15

Plastics — Plasticized poly(vinyl chloride) (PVC-P) moulding and extrusion materials —

Part 1:

Designation system and basis for
specifications

*Plastiques — Matériaux à base de poly(chlorure de vinyle) plastifié (PVC-P)
pour moulage et extrusion —*

Partie 1: Système de désignation et base de spécification

Reference number
ISO 2898-1:1996(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 2898-1 was prepared by Technical Committee ISO/TC 61, *Plastics*, Subcommittee SC 9, *Thermoplastics*.

This third edition cancels and replaces the second edition (ISO 2898-1:1986) and includes the following changes:

the text has been brought into line with latest version of the so-called "frame text";

"tape manufacture" has been added in data block 2 as a possible application.

ISO 2898 consists of the following parts, under the general title *Plastics — Plasticized poly(vinyl chloride) (PVC-P) moulding and extrusion materials*.

- *Part 1: Designation system and basis for specifications*
- *Part 2: Preparation of test specimens and determination of properties*
