

INTERNATIONAL STANDARD ISO 3603

INTERNATIONAL ORGANIZATION FOR STANDARDIZATION • МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ • ORGANISATION INTERNATIONALE DE NORMALISATION

Fittings for unplasticized polyvinyl chloride (PVC) pressure pipes with elastic sealing ring type joints — Pressure test for leakproofness

Raccords à bagues d'étanchéité élastiques pour canalisations avec pression en polychlorure de vinyle (PVC) non plastifié — Essai d'étanchéité

First edition — 1977-04-01

UDC 621.643.4.06 : 678.743.22 : 620.162.4

Ref. No. ISO 3603-1977 (E)

Descriptors : piping, pressure pipes, plastic pipes, unplasticized polyvinyl chloride, pipe fittings, sealing rings, water-tightness tests, test equipment.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3603 was developed by Technical Committee ISO/TC 138, *Plastics pipes, fittings and valves for the transport of fluids*, and was circulated to the member bodies in December 1974.

It has been approved by the member bodies of the following countries :

Austria	Israel	South Africa, Rep. of
Belgium	Italy	Spain
Canada	Japan	Sweden
Finland	Mexico	Switzerland
France	New Zealand	Turkey
Germany	Norway	U.S.A.
India	Poland	U.S.S.R.
Ireland	Romania	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Denmark
Netherlands
United Kingdom
