Descriptors : micrography, flowcharts, symbols, microfilm, vocabulary.

Price based on 14 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6829 was developed by Technical Committee ISO/TC 171, *Micrographics*, and was circulated to the member bodies in February 1982.

It has been approved by the member bodies of the following countries :

Australia	Germany, F. R.	South Africa, Rep. of
Canada	Ireland	Spain
Denmark	Italy	Sweden
Egypt, Arab Rep. of	Japan	Switzerland
France	Poland	USA

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Austria
Czechoslovakia
