
International Standard

7774

INTERNATIONAL ORGANIZATION FOR STANDARDIZATION • МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ • ORGANISATION INTERNATIONALE DE NORMALISATION

Road vehicles — Compression ignition engines — Single fuel filters with horizontal flange and centre bolt fixing — Mounting and connecting dimensions

Véhicules routiers — Moteurs à combustion interne à allumage par compression — Filtres à combustible à simple étage avec bride horizontale et fixation par boulon central — Dimensions de montage et de raccordement

First edition — 1984-11-15

UDC 621.43.038.772

Ref. No. ISO 7774-1984 (E)

Descriptors : road vehicles, internal combustion engines, fuel filters, connecting dimensions, dimensions, dimensional tolerances.

Price based on 4 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 7774 was prepared by Technical Committee ISO/TC 22, *Road vehicles*.
