Ref. No. ISO 787/21-1979 (E)

Sescriptors : paints, pigments, tests, high temperature tests, stability tests, thermal stability, comparative tests.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 787/21 was developed by Technical Committee ISO/TC 35, *Paints and varnishes*, and was circulated to the member bodies in March 1978.

It has been approved by the member bodies of the following countries :

Australia	Israel	Romania
Bulgaria	Italy	South Africa, Rep. of
Canada	Kenya	Sweden
Egypt, Arab Rep. of	Korea, Rep. of	Switzerland
Germany, F. R.	Netherlands	Turkey
India	New Zealand	United Kingdom
Iran	Norway	Yugoslavia
Ireland	Poland	

The member body of the following country expressed disapproval of the document on technical grounds :

France
